Education

SRM-IST Delhi-NCR Campus

Bachelor of Technology in Computer Science (CGPA: 9.4)

August 2023 – May 2027

Delhi-NCR, Uttar Pradesh

Class 12th - Rani Laxmi Bai Memorial Senior Secondary School

80.6%

April 2021 - July 2022

Lucknow, Uttar Pradesh

Class 10th - Rani Laxmi Bai Memorial Senior Secondary School

82.8%

April 2019 - July 2020

Lucknow, Uttar Pradesh

Skills/Coursework

- Data Structures
- Operating Systems
- DBMS basics
- OOPS Concept
- Comp.Network Basics
- A.I Basics
- Machine Learning

Experience

Ozone Space

Web Dev , SEO Intern

July 2025 – August 2025

Remote - Jaipur, Rajasthan

- Working on technical SEO tasks like optimizing website structure, internal linking, and adding structured data to improve search visibility.
- Applied best practices in HTML, CSS, and JavaScript for SEO-friendly development.
- Used tools like Google Search Console and Lighthouse to monitor and fix SEO-related issues.
- Also responsible for testing the website to identify and report bugs, check performance, and ensure mobile responsiveness. Reviewed UI/UX for usability and consistency, and collaborated with developers to resolve layout issues and improve overall user experience.

Projects

PDLC Managment 🐍 | *Python, Flask, SQLite*

March 2026

- * **Developed PDLC ManageNet**, a full-stack web application using Python (Flask), SQLite, and Bootstrap, to automate the complete software development lifecycle. Implemented modules for project management, requirement tracking, task management, testing with real-time PASS/FAIL toggling, and defect tracking, along with dashboard-based analytics for project monitoring.

Event People Counting ML 🐍 | *Python, OpenCV, Yolo*

September 2025

- **Developed a real-time people-counting system** leveraging YOLO (You Only Look Once) object detection to accurately identify and count individuals in images and video streams.
- Implemented the pipeline using **Python, OpenCV, and pre-trained YOLO models**, achieving high detection accuracy.
- Optimized model parameters and post-processing to handle **crowded environments and occlusions** effectively.

Bill-Management-System 🐍 | *Python, Tkinter*

October 2024

- **Developed a Bill Management System** using **Python** and **Tkinter** for intuitive GUI-based operations.
- Designed and implemented features for **bill creation, updating, and storage**, improving efficiency of record-keeping.
- Utilized **SQLite/CSV** (if you used one) for persistent data storage and retrieval.

Technical Skills

Languages: Python, C++, C, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Google Colab, LightHouse

Technologies/Frameworks: Linux, GitHub, WordPress

Extracurricular

SRM: Cryptic Hunt

April 30 , 2025

Winner

- Achieved Rank 1 on the Leader-Board

SRMIST Delhi-NCR Campus

Organising Team

April 2025

Hackathon

- Part of the Organising Team of "Hackstasy" organised CSI SRMIST Delhi-NCR Campus

SRMIST Delhi-NCR Campus

Member - Photography Club

August 2024 - current

Club

Contributed to event coverage and visual content creation for campus/organization events.
